CAPABILITY STATEMENT

MISSION STATEMENT

Improve efficiency, cost effectiveness and management analysis of operations by integrating the latest technology tools and techniques with best business practices.

CORPORATE PROFILE

CitiTech Systems, Inc. is a technology company specializing in performance-based work management. With over 20 years experience, it has developed, implemented and supported a highly-integrated software solution that plans, schedules, performs and evaluates work cost and accomplishments to maximize efficiency and effectiveness using definable performance standards. It uses EVM guidelines to improve program management. CitiTech Systems is a Service-disabled, Veteran-owned Small Business.

CORE COMPETENCIES

CitiTech Systems offers a fully-developed COTS management system designed to improve how we manage projects, programs and other definable objectives. Modular-based, it can be molded to meet any agency requirement. Key functional capabilities include:

- Performance-based work planning and budgeting defines program/activity objectives.
- Work Scheduling manages planned and unplanned work requirements.
- Activity-based Work Reporting tracks actual resource costs/usage needed to do work.
- Management Evaluation reports follow EVM guidelines to track costs and performance.
- Comprehensive Resource Management manages labor, equipment, material and contractor resources.
- Process Improvement improves how information is collected, managed and reported.
- Asset Management uses activity-based costing to track costs and performance to projects or assets.
- Mobile functionality. Supports disconnected laptops, tablets and handheld devices.
- Data Integration shares information with other systems using secure connections.
